

CALL FOR TENDERS

suHCO is calling for suppliers to develop an **innovative AI enabled modular digital platform** that enables Health and Care Organisations in transitioning to sustainable care delivery **more effectively and systematically.**

TARGET GROUP

For all companies, start-ups and market innovators who aim at developing solutions addressing complex challenges in the transition toward a sustainable healthcare delivery across the care delivery chain.

We seek novel Research and Development (R&D) services on AI, Platforms, CE, Change and Upskilling.

BUYER'S GOAL

Suppliers are asked to develop an integrated digital solution that helps healthcare organisations plan, implement and manage their sustainability transition.

The solution connect data, day-to-day operations, organisational decision-making and staff engagement, while enabling progress and impact to be measured through clear sustainability indicators.

ELIGIBILITY

Open to all operators established in EU and HE-associated countries on equal terms, regardless of the size or governance structure.

Sole tenderes, consortia and subcontracting permitted.

See Call for Tender TD1 for details.

The tender is a **Pre-Commercial Procurement** following a competitive procedure in three phases:

Phase I Solution Design,
5 suppliers, €114.5K each

Phase II Prototype
Development, 3 suppliers,
€381.6K each

Phase III Original Development
and Testing, 2 suppliers,
€572.4K each

HOW TO APPLY

Interested parties can download the tender document package with all info on the website

DEADLINE: 09 Oct 2026 (14:00) CEST
